

UTAH TEACHER FELLOWS
2021-2023
Application Process

With your principal or supervisor, discuss and assess your level of readiness and commitment to actively participate in the Utah Teacher Fellows Program. Consider how your participation in the fellowship would contribute to:

- your professional learning;
- the strengthening of your school or district; and
- your continued growth through identified leadership opportunities.

The Utah program has been carefully designed to develop the competencies of great teachers, providing them with tools to engage their colleagues and generate solutions to education challenges. To date, Hope Street Group Utah Teacher Fellows have met with state and federal decision makers, attended regional and national convenings, and been featured in multiple publications. See how teacher fellows view the program in the short video [here](#).

Utah Teacher Fellows will be teachers who remain in their schools full-time and contribute ~10 hours monthly to program activities including data collections, professional learning sessions and partner meetings. You can find information about the fellowship at www.hopestreetgroup.org.
